What Happens to the University Now?

Nikhil Bhattacharya

Institute for Liberal Arts
Bethesda, MD USA

13 marzo 2014

ore 15.45

aula II, Via dell'Università 4
Modena

In Western Europe and the United States, traditional models of the university are beginning to collapse, for both economic and broader cultural reasons. A vital question is how we should rethink higher education. In this lecture, Professor Bhattacharya will consider the evolution of the university to its current structures and functions, along with the institution's achievements and failures. The goal of this analysis is to explore how the university needs to be redefined in the future.
